

INDEX TO VOLUME 61 — METAL FINISHING

JANUARY-DECEMBER, 1963

(Compiled by N. Hall, Technical Editor, and I. Oquendo, Equipment and News Editor)

In this index all material that appeared in the January through December 1963 issues of *Metal Finishing* is listed according to subject matter, with cross references where required. Following each listing will be found a letter indicating the manner in which the material was published, as follows:

(S)—Shop Problem

(M)—Manufacturers' Literature

(R)—Recent Development

(B)—Book

(P)—Patent

Any reference not followed by a letter was a feature article. The numbers in the right-hand column refer to the month and page numbers; 6-85 means June issue, page 85, etc.

ELECTROPLATING ENGINEERING HANDBOOK, Second Edition. Edited by *Dr. A. Kenneth Graham*; 774 pages. The 1962 edition updates processes, treatments, equipment, design and engineering features related to electroplating and metal finishing.

Price \$18.50

METALLIZING OF PLASTICS, by *Dr. Harold Marcus*; 208 pages, 1960. This book contains details for carrying out every commercial metallizing process with plastics and other non conductors. Price \$5.50

PROTECTIVE COATINGS FOR METALS, Second Edition, by *R. M. Burns*, 657 pages, 1955. This edition contains latest information on the composition, properties, and performance of both metallic and organic coatings. Price \$12.50

METALLIZING NON CONDUCTORS, by *Samuel Wein*, 62 pages, 1945. This book contains formulas for plating on plastics. Price \$2.00

Electroplaters' Process Control Handbook, by *Foulke and Crane*. Price \$14.75

FINISHING TO GOVERNMENT SPECIFICATIONS, by *Boris B. Joffe*. This is a reprint of a series of articles which appeared in **METAL FINISHING** during 1961-1962. Price \$2.00

PRINCIPLES OF ELECTROPLATING AND ELECTROFORMING, Third Edition, by *Blum and Hogaboom*, 455 pages, 1949. This is a fundamental reference work. Price \$10.00
